INAUGURAL RELEASE

REFLECTOR

CABERNET SAUVIGNON

VINEYARDS OF UPPER RANGE, NAPA VALLEY

“Reflector has these immense boulders, some of them as big as a truck, that were dug out when the vineyard was developed and placed in a ring around the edges. Their red color and their density are a hallmark of the Pritchard Hill area in particular—the high iron content and very hard volcanic andesite rock. It doesn’t get any more textbook than this.”

—Garrett Buckland, VITICULTURAL CONSULTANT
